The High School Placement Test, called HSPT for short, is divided into five parts and takes approximately 2 hours and 30 minutes. Each question offers three or four choices, labeled (A), (B), (C), (D), and students are not penalized for answering incorrectly.

The Scholastic Testing Service converts the raw scores to standard scores that are reported on a scale of 200 to 800. Percentile rankings are also determined at that time, and distributed to schools.

Some schools may ask students to take an additional test in Catholic Religion, Mechanical Aptitude, or Science; however any score on this optional part is not included in the total score on the exam.

For more detailed information and your Score Analysis charts and breakdown, please refer to the Score Analysis pages. Student answers are also color coded to assist you in quickly locating problem areas within sections. Correct answers are highlighted **green** and incorrect answers are highlighted **red**.

VERBAL SKILLS

This section includes synonyms, antonyms, analogies, logic, and verbal classifications. All five questions will be mixed together in no particular order.

QUANTITATIVE SKILLS

This section focuses on your ability to work with number manipulation, non-geometric comparisons, geometric comparison, and series.

Score Analysis - Section/Category Charts

READING COMPREHENSION

This section attempts to judge how well you comprehend what you read and your ability to infer vocabulary meaning. This section is split into two parts: reading comprehension and vocabulary in context.

MATHEMATICS

Mathematics includes mathematical concepts and problem solving drawn from arithmetic, elementary algebra, and basic geometry. This sections is split into two parts: concept and problem solving.
